★ = Top selling product

Renowned for innovation and high quality, Anetic Aid listens to customers and works closely with them to develop state-of-the-art products for a variety of clinical environments.

In our furniture range, we use only British Standard recommended gauges of 304 stainless steel. We mechanically polish and electropolish these items, removing crests and valleys invisible to the naked eye and producing an even smoother surface – making it less likely that any matter such as dirt or bacteria will adhere to the surface of the steel.

Innovative medical technology – practically applied

After Sales Service

Members of our qualified sales team are available for consultations and can often provide sample products for on-site trials. We also offer demonstrations and training to ensure users fully understand the features of each item.

Designed and produced at our UK manufacturing facility using the latest engineering techniques

With extensive stock held in our warehouse, we offer rapid delivery times

WARRANTY
Terms and Conditions apply

All of our stainless steel products carry a five year manufacturer's warranty

INSTRUMENT TROLLEYS

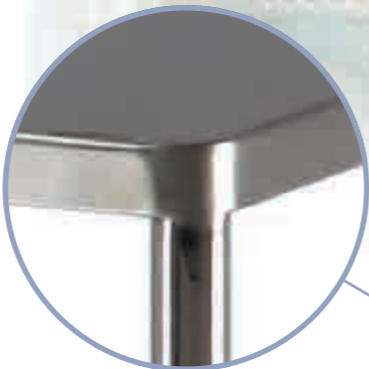

We offer a wide range of Instrument Trolleys and every component is quality hallmarked.

Each product is individually inspected and available for immediate dispatch.

All our Instrument Trolleys have Fixed Downturned Shelves, come complete with Stainless Steel bright polished frames and use only British Standard recommended gauge 304 stainless steel. All shelves are 2.0mm thick with a 240 silicon grain ultra smooth satin finish. The castors are twin-wheeled, non-corrosive and ideal for modern clinical areas.

Description	Code
Instrument Trolley W450 x D450 x H850mm – Fixed Downturned Shelves	★ 25000
Instrument Trolley W600 x D450 x H850mm – Fixed Downturned Shelves	25010
Instrument Trolley W750 x D450 x H850mm – Fixed Downturned Shelves	25020
Instrument Trolley W900 x D450 x H850mm – Fixed Downturned Shelves	★ 25030
Instrument Trolley W1200 x D450 x H850mm – Fixed Downturned Shelves	25040
Instrument Trolley W1200 x D600 x H850mm – Fixed Downturned Shelves	25050

• High strength plastic-bodied castors do not suffer corrosion like traditional steel-bodied models and are quick and simple to replace if damaged

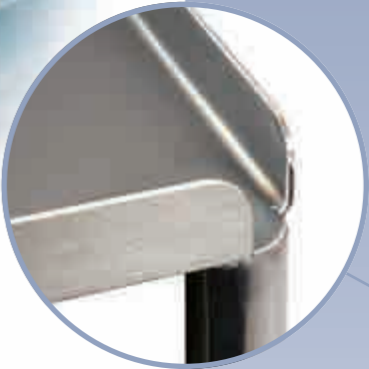

NEW

Does your equipment migrate to other departments?
Use our new Coloured Castors to easily identify where individual pieces of equipment belong.
Available as a factory fit in Red, Blue, Green, Yellow, Purple, Black or White.

DRESSING / EQUIPMENT TROLLEYS

Factory fit – please specify at time of ordering	

- Stool mechanism enclosed within moulded cover for easy cleaning

Stools are foot-operated, which allows adjustment without compromising the sterile field. We have maintained a simple form by enclosing the mechanism inside a moulded cover and all metalwork is mirror polished with a specialist heavy duty Teflon® coated finish on the base. Pressure Care pads are fitted as standard.

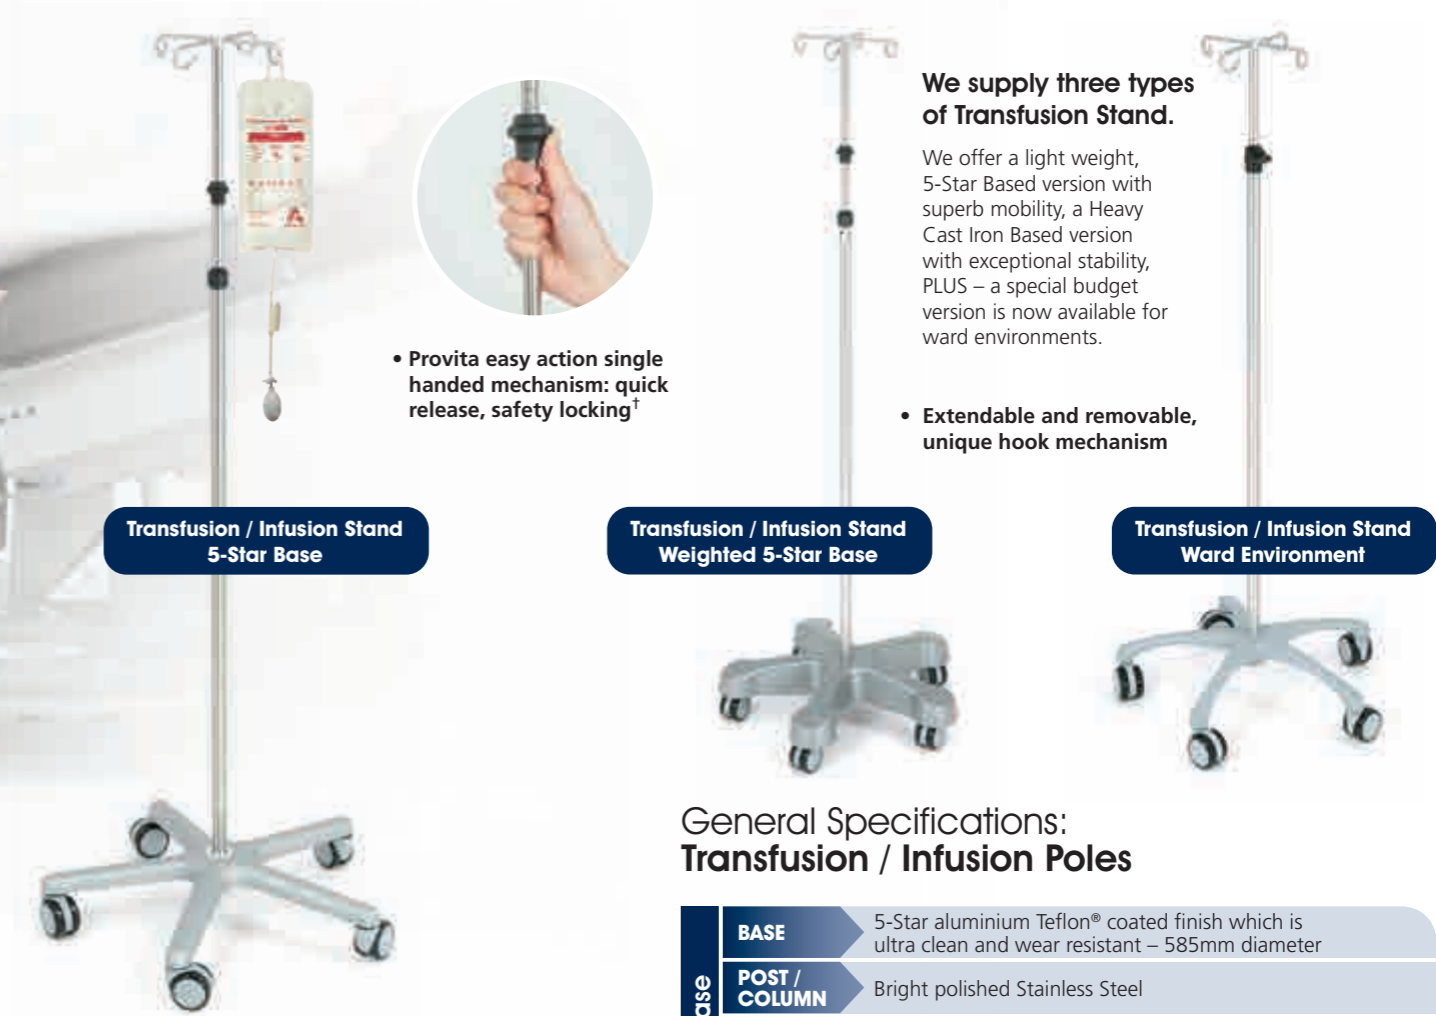

- Foot-operated surgeon's stools allow adjustment without compromising the sterile field

Description	Code
Surgeon's Stool – Castors – includes Seat Cushion	25300
Surgeon's Stool – Stump Feet – includes Seat Cushion	25310

- Modular design enables customers to tailor each stool to their exact requirements

TRANSFUSION / INFUSION STANDS – MOBILE

We supply three types of Transfusion Stand.

We offer a light weight, 5-Star Based version with superb mobility, a Heavy Cast Iron Based version with exceptional stability, PLUS – a special budget version is now available for ward environments.

- Extendable and removable, unique hook mechanism

General Specifications: Transfusion / Infusion Poles

5-Star Base	BASE	5-Star aluminium Teflon® coated finish which is ultra clean and wear resistant – 585mm diameter
	POST / COLUMN	Bright polished Stainless Steel
	CASTORS	65mm Polyurethane-tyred, non-corrosive
	HEIGHT RANGE	1505mm – 2185mm
	WEIGHT	5kg
Heavy Base	BASE	Resin filled acrylic capped ABS vac-formed cover, antibacterial – 570mm diameter
	POST / COLUMN	Bright polished Stainless Steel
	CASTORS	65mm Polyurethane-tyred, non-corrosive
	HEIGHT RANGE	1540mm – 2220mm
	WEIGHT	17kg
Ward Environment	BASE	Polypropylene
	POST / COLUMN	Bright polished Stainless Steel
	CASTORS	65mm Polyurethane-tyred, non-corrosive
	HEIGHT RANGE	1285mm – 2110mm
	WEIGHT	3.5kg

Our transfusion stands incorporate several important features rarely found on other transfusion stands on the market. These include solid stainless steel poles, an innovative quick release safety locking mechanism† and drainage at the base of the column to prevent fluid build-up. There is a specialist heavy duty Teflon® coated finish on the light weight base† and a unique acrylic capped antibacterial cover to the heavy base version.
