eyeball eyewear P07P1P111001

Highlights

The patient and/or the eyeball eyewear P07.P1P11.1001 is suitable for all laser wavelengths. It is completely free of metal and therefor it provides a very good and convenient wearing comfort in compliance with very high protection levels against laser radiation with the UV, VIS, NIR and IR-area. Especially for laser treatments in the facial area this eyewear offers a much better access to the forehead/nose as well as to the temporal area. It can be used in both directions with the nose bridge showing up or down. The adjustable strap ensure a secure and pressure free fit.
