

Dermatoscope Heine Delta 30 PRO Bundle

PRODUCT REFERENCE: K-236.28.306

Delta 30 PRO Bundle - Product content:

- Delta 30 PRO
- Contact plate with scale
- E4-USBC power supply with cable
- Small contact tip
- Table charger
- Universal smartphone screw-on adapter
- Sturdy protective case

High-end dermatoscope with our best imaging

Since the LEDHQ elements have been repositioned, the light reaches deeper layers of the skin too. This gives an extremely vivid, spatial impression of lesions – similar to a 3D image. The HEINE colorSHIFT function is a genuine world first. It allows you to easily adjust the colour temperature to suit your own viewing habits.

Extremely vivid, spatial impression of lesions

- Very good assessment of lesions' spatial structure possible due to deeper light penetration thanks to angled and directional LEDHQ arrangement
- Easier to distinguish between dark and white structures and patterns during polarisation
- Switch between polarised and non-polarised light at the touch of a button = toggle function
- Crystal-clear image, no matter whether you prefer to work close-up or further away
- Large field of view with 'real' 30 mm Ø due to 32 mm lens diameter

Choose the light colour to suit your own preferences with HEINE colorSHIFT

- 4 colour temperature stages from warm white to bluish white
- Adjustable to suit your own habits and preferences or the challenges posed by the lesion to be examined

Sturdy and durable

- Aluminium frame
- Particularly resistant to disinfectants due to new plastics
- Convenient cleaning
- Glass lenses
- Improved battery life

Intuitive and ergonomic

- Ergonomic handling due to angled product design

- Scale on eyepiece shows the focus setting – for easy preselection of certain settings for specific users and/or for use with a camera or smartphone
- Easy charging due to USB-C
- Rechargeable battery with Li-ion technology: no memory effect; you can safely recharge the battery regardless of its charge state
- Stable and safe charging with the Charger 30 table charger (optional)
- Fast change from contact to non-contact examination
- Custom light intensity: 3 degrees of luminous intensity
- 10x magnification
- No cross-contamination: autoclavable contact plate with scale
- Small contact plate for hard-to-reach lesions

Digital documentation options:

- Convenient and intuitive image and data management with the HEINE DERManager.
- Easy digital imaging with almost all available smartphones thanks to the new universal adapter
