

Mechanical baby scales with sliding weights Seca 745

This model combines classic design with high-quality precision mechanics. Determining an exact weight is child's play, thanks to the smooth movement of precise sliders. The gently curved weighing tray keeps the baby safe during every step of the weighing process. The resetting function that puts the scale back to zero lets the user reliably determine net weight. Before the baby is weighed, the weight of soft padding in the tray or of the baby's diaper can be deducted from the gross weight with use of the reset-to-zero function. The impact-resistant and scratchproof finish makes it easy to care for the seca 745 and contributes to the scale's guaranteed long service life.

Features

Approval class	III
Weighing capacity	16 kg
Scale (g)	10

Dimensions

H x L x W	80 x 550 x 290 cm
Weight	6,4 kg
