

EMR-validated column scale Seca 704

Accommodate a increased weighing capacity with the seca 704

The seca 704 column scale is designed to withstand the greatest loads and to continue to function precisely and safely after years of use as on the first day. Stability is not only evident; it is proven by the very high load-bearing capacity and the steady cast-iron base. Even patients who are affected by obesity can be weighed safely and with particularly high precision.

- seca 704 s with integrated measuring rod
- seca 704 r with integrated RS232 interface

Features

Approval class	III
Weighing capacity	300 kg
Scale (g)	50 g < 150 kg > 100
Power supply	battery, power adaptor
Functions	overload protection, transport castors, tare, pre-tare, automatic pause, automatic switch-off

Dimensions

H x L x W	930 x 360 x 520 cm
Weight	14,9 kg
