

Baby scale with extra large weighing tray Seca 376

Adjustable damping

TARRA, PAUSE, AUTOMATIC PAUSE AND BMIF for extra comfort.

Extra large and ergonomic scale for safe weighing.

With the optional seca 233 measuring rod, the scale is extended to a measuring station.

Ergonomic, convenient and time-saving: these are the key words that define the seca 376. The extra-large platform allows you to weigh a seated toddler up to 20 kg, even if the child cannot sit still. The adjustable damping function in combination with the Auto-HOLD function ensures fast and accurate work. Net weight of a baby with nappy? Choose TARA. The amount of breast milk given to a baby? Use the BMIF (breastfeeding intake function). Measuring and weighing in one step? Yes - thanks to the optional seca 233 ruler.

Features

Approval class	III
