

EMR-compatibele elektronische platformweegschaal Seca 675

EMR ready electronic platform scale

This electrically-operated, generously-sized wheelchair/ platform scale is multifunctional. It weighs patients in care, especially heavy patients, persons in wheelchairs and seated patients with circulatory trouble, even during dialysis. The flexible cable remote display can be placed anywhere (e.g. on a desk or table) for convenient readout and operation of the controls.

A wall mounting is also provided. Transport castors and a handle make the seca 675 mobile. Measurements can be transmitted wirelessly to a PC or EMR system immediately after weighing.

Features Dimensions

Approval class	III	HxLxW	7 x 90,4 x 106,4 cm
Weighing capacity	300 kg	Weight	27 kg
Scale (g)	100 g <200 kg> 200 g		
Power supply	power adapter
