

Seca 877 - Mobile step scale

seca 877

Flat scales for mobile use

Robust, very light flat scales with integrated display, Tap-on automatic switch on and mother / child function for mobile use.

Scales intended for mobile use have to be lightweight. This scale is nevertheless very stable and suitable for persons weighing up to 200 kilogrammes. It stands firmly on four leveling feet that guarantee stability, even when small children are weighed while held by an adult. The mother/child-function ascertains, and displays the weight of the child with just the touch of a button.

- Compact and light (4.2 kg)
- Very stable thanks to 4 levelling feet and suitable for patients up to 200 kg
- Mother-child function determines the tare of the weight at the push of a button
