

Anaesthesia trolley Insausti

A wide range of medical trolleys, used in medical assistance areas
Emergency room, operating room, reanimation room

The ISO trolleys and SQ trolleys of Insausti have a clinical appearance and are perfectly applicable in all disciplines of the hospital. The strength of Insausti lies in its innovative design, conceived in Spain in cooperation with health professionals worldwide. Especially the self-closing and fully extendable drawers are unique in the market.
