

## Operatielamp Dr Mach LED 300 DF SC

Operation light with 160,000 lux (1 m distance), mechanical and electronic focusing

- 160,000 lux
- Excellent colour rendering
- Colour temperature adjustment
- Focusable
- Faceted lens system
- Merging of luminous fields
- Cool light
- Ease of maintenance
- Photobiological safety

### Features

|                                   |                                           |
|-----------------------------------|-------------------------------------------|
| Lamp type                         | operating lamp                            |
| Type of mounting                  | Mobile on foot / ceiling or wall mounting |
| Light intensity                   | 160 000 Lux                               |
| Colour rendering index (Ra)       | 95 Ra                                     |
| Colour temperature                | 4500 k                                    |
| Focusable size of the light field | 17-27 cm                                  |
| Working distance                  | 70 -150 mm                                |
| Number of LEDs                    | 36                                        |
| Levensduur LED's                  | 60 000 u                                  |
| Power consumption                 | 37 W                                      |
