

Bovie OR PRO 300

PRODUCT REFERENCE: A3350

OR Pro high frequency electrosurgical generator

The Bovie OR PRO 300 electrosurgical generator was designed in collaboration with surgeons to provide a safe, user-friendly generator that meets all requirements for performing operations in the operating room. This innovative energy-based device offers 13 modalities for the delivery of surgical energy. Special modalities include the advanced Bovie Bipolar, Auto Bipolar options and special Laparoscopic modes. These modes are included to help surgeons tailor all electrosurgical needs to their various surgical applications and user preferences.
