

Dermatoscope DermLite handyscope

PRODUCT REFERENCE: FFH2

A cooperation with FotoFinder, the DermLite handyscope® smartphone dermatoscope has been designed from the ground up to be the ultimate tool specifically designed for smartphones and tablets.

Compatible with most Apple or Android smartphones or tablets right out of the box, the innovative device allows for DermLite-quality polarized & non-polarized dermoscopy and even clinical images illuminated by an on-board ultra-bright LED.

The DermLite handyscope set includes:

- 10x polarized & non-polarized dermatoscope
- 2 snap-in glass faceplates
- 3 MagnetiConnect Rings
- Soft Carrying Case with Lanyard
- IceCap sample supply
- USB to USB-C charging cable
